

WOODSHIELD

The Premier Coated Timber Posts

SUSTAINABLE BOLLARDS & BARRIERS

**Chemical Free Timber Posts
Encapsulated in Long Life
Recycled Polymer**

WOODSHIELD are proud to offer a sustainable bollard and barricade product that is completely recyclable & environmentally friendly.

A greater flex than chemically treated timber or steel in a collision. Low maintenance and organically approved with a long life span, the **WOODSHIELD** product will perform for decades. Complies with OH & S handling - Compliant to Australian Standards (AS4685).

WOODSHIELD Pty Ltd is an Australian company manufacturing a patented, non-treated timber post encased in recycled polymer.

Joining the best of both worlds; the rigidity and strength of wood, with the toughness & resilience (protective properties) of plastic and completely free of standard timber treatment chemicals.
