

WOODSHIELD

The Premier Coated Timber Posts

Untreated timber fully encased in recycled plastic

The Woodshield post has been around since 2004 and is a non-treated timber post fully encased in recycled polymer joining the best of both worlds. The rigidity and strength of wood, with the toughness & resilience of plastic. This increases the strength and the longevity of the post, approx. 4-5 times longer life than a treated timber post with a 100% greater breaking angle. The posts are fully sealed at each end and can be 'rammed' or 'knocked' in. The encapsulated plastic coating means the timber does not dry out and split - therefore you do not have fasteners becoming loose etc.

Profile	Diameter (approx.)	Poly thickness (approx.)	Lengths Avail. (mt's)
Large Round	120mm	5mm	1.2/1.5/1.8/2.1/2.4/3/3.6
Medium Round	95/100mm	4mm	1.8/2.1/2.4/3/3.6/4.2
Standard Round	83mm	4mm	1.8/2.1/2.4/3/3.6
